## NASAL PILLOWS MASK

### Specification Sheet

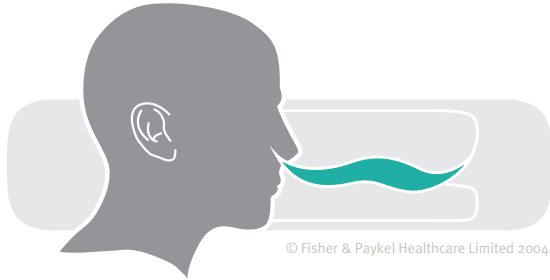

---

#### A Nasal Pillows Mask

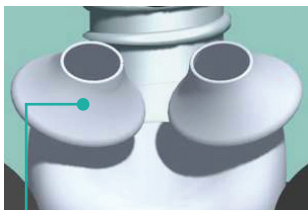

*Small, quiet and superbly comfortable with an anatomical pillow-style Silicone Seal, and facially contoured headgear with reinforcement for extra stability. The ball-and-socket-styled joint combines with the innovative anchoring system to give unprecedented stability and freedom of movement.*

# Direct Nasal Delivery - *Opus*<sup>TM</sup>

*The Opus<sup>TM</sup> Nasal Pillows Mask is small, quiet and superbly comfortable with anatomical pillow-style Silicone Seal and facially contoured, reinforced headgear. A ball-and-socket-styled joint combines with an innovative anchoring system to give unprecedented stability and freedom of movement. The Opus<sup>TM</sup> Nasal Pillows Mask comes as an Out-of-Box Solution, fully assembled and ready for use with alternative sizes of Silicone Pillows included.*

## UNIQUE MASK FEATURES FOR GREATER FREEDOM, COMFORT AND COMPLIANCE

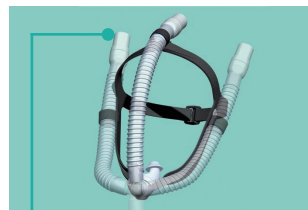

### Anatomically Shaped Pillows System

The anatomically shaped Pillows provide easy fitting with an excellent seal. The contours of the nasal pillows ensure greater comfort. The range of sizes provided (S,M,L) ensures comfort and seal are not compromised.

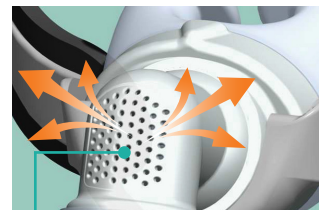

### Reinforced Contoured Headgear Mask stability

The facially contoured headgear, with reinforcing support structures, conforms naturally to any face shape providing a comfortable fit and reliable support. Its slim-line design allows side-sleeping without mask displacement.

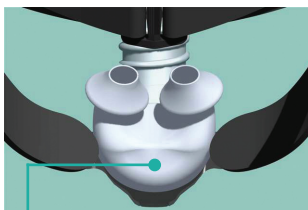

### Tube Anchoring System Mask stability

Anchor the tube at the top, side, or leave it free to track. Elegant in design and simplicity, it firmly holds the tube in the desired position. Alternatively, leave the tube unanchored and the ball-and-socket joint really comes into play allowing true 360° of freedom.

### Efficient Exhaust Quiet usage

The advanced air diffuser system is quiet and minimizes the noise and draft of the exhaust flow to prevent both sleeper and partner disturbance.

### Soft-Lip<sup>TM</sup> Cushion Mask comfort

The Silicone Seal is soft on the nose and supple on the upper lip, with a built-in Soft-Lip<sup>TM</sup> Cushion to conform naturally to the shape of the upper lip for maximum comfort.

### Premium Frosted Silicone Seal Optimizing seal technology

This seal technology has a soft, smooth feel to slide easily into position and its frosted texture optimizes the mask seal.

## CONTENTS

- Complete mask with headgear assembled and ready for use
- All three sizes of Silicone Seal included (S,M,L)
- User-friendly Fitting Guide
